

**AIR LOGISTICS GROUP
COOKIES POLICY**

Please note that in order for us to provide you with optimum service, we use 'Cookies' on our website.

What are cookies?

A "cookie" is a small data text file that is placed in your browser and allows www.airlogisticsgroup.com to recognise you each time you visit this site (customisation etc). Cookies themselves do not contain any personal information, and www.airlogisticsgroup.com does not use cookies to collect personal information. Cookies may also be used to pass information between websites owned by Air Logistics Group Limited. Cookies will typically contain the name of the domain from which the cookie has come, the "lifetime" of the cookie, and a value, usually a randomly generated unique number.

Two types of cookies are used on this web site - session cookies, which are temporary cookies that remain in the cookie file of your browser until you leave the site, and persistent cookies, which remain in the cookie file of your browser for much longer (though how long will depend on the lifetime of the specific cookie).

Cookies allow us to obtain information regarding users of our site which essentially helps us to provide you with a better user experience and tailor our services to your individual needs. We may collect information such as your IP address, online activity, web browser details and online activity. We will not however collect or store any of your passwords or other highly sensitive data.

By using our website with your browser settings adjusted to accept all cookies, we will take this to mean that you want to use our products and services, and that you consent to our use of cookies and other technologies as described in this Policy.

Browser settings: Most browsers have options that allow the visitor to control whether the browser will accept cookies, reject cookies, or notify the visitor each time a cookie is sent. You may elect to reject cookies by adjusting your browser's settings, but doing so will limit the range of features available to the visitor on our site and most other major websites that use cookies.

We use the following types of cookies on our website:

Category 1: strictly necessary cookies

These cookies are essential in order to enable you to move around the website and use its features, such as accessing secure areas of the website.

Category 2: performance cookies

These cookies collect information about how visitors use a website, for instance which pages visitors go to most often, and if they get error messages from web pages. These cookies don't collect information that identifies a visitor. All information these cookies collect is aggregated and therefore anonymous. It is only used to improve how a website works.

Category 3: Functionality Cookies

These cookies are used to recognise you when you return to our website. This enables us to personalise our content for you, greet you by name and remember your preferences (for example, your choice of language or region).

Category 4: Targeting or Advertising Cookies

These cookies are used to deliver adverts more relevant to you and your interests. They are also used to limit the number of times you see an advertisement as well as help measure the effectiveness of the advertising campaign. They are usually placed by advertising networks with our permission. They remember that you have visited a website and this information is shared with other organisations such as advertisers. Quite often targeting or advertising cookies will be linked to site functionality provided by the other organisation.

By using our website, you agree that we can place these types of cookies on your device.
